5. Vendor Selection, Space Allocation and Fees

5.1. Vendor Selection Criteria

5.1.1. General Selection Criteria

1. No particular order is used to evaluate potential market participants for the Certified Section of the Market.
 - (a) Product mix - products are admitted to the Market with adequate variety to ensure a wide product mix and to fulfill consumer demand without creating an excess of any one product.
 - (b) Desirability of crops - crops which are in demand, are one-of-a-kind or of exceptional quality or uniqueness, are preferred over crops already in sufficient supply at the market.
 - (c) Fresh products – growers of fresh products are given priority over producers of processed products.
 - (d) Processed Products - Preference is given to growers selling processed products that they process themselves vs. products taken to a processing facility (i.e. Dried fruit, juice, shelled nuts, etc.)

- (e) Sustainable Farming - Preference is given to producers who follow sustainable farming practices. Sustainable farming takes into account proximity to market, which for CFM purposes are all crops grown in Alabama. Sustainable farming practices include organic (no synthetic products, regulated by State and Federal regulations), Integrated Pest Management (IPM), "Low Input" which refers to minimal use of synthetic fertilizers and pesticides, as well as other practices including crop rotation, crop diversity, water conservation, composting, use of cover crops to increase soil fertility and any methods that use natural means to control weeds, pests and disease.
